### New Business:

#### **Continuation of open Discussion about Electricity installed at our club field.**

1. Mike Holbrook spoke with Yadkin Electric about the cost. Mike asked if the following would be possible.

Unfortunately, neither option was approved by the Regional Manager.

- a. If the club funded \$10k would Yakin Electric donate the rest?
  - b. If the club funded \$10 would Yakin Electric do a payment plan for the rest of the installation cost?
  - c. In addition, Yakin Electric disclosed both landowners must sign an easement to run the lines. Butch did not see an issue with the owners.
2. Howard discussed the confusion surrounding moving the Jet Event revenue to the Electricity Fund.
    - a. To clarify; the club took a vote stating the Jet Event & Warbird Event revenues be moved to the electricity fund.
    - b. Motion made: John Welcome, second: John Titus. The motion passed with 1 NO vote.
      - i. Mike Holbrook was the dissenting vote, stating he is in favor of electricity, but as Treasurer he felt the funds should only be moved to the fund by club vote when the full balance is achieved.
    - c. Electricity cost estimate:
      - i. \$20,530.04 minus a \$ 3000.00 credit, total then of \$17,530.04
      - ii. 2000 ft (estimate would be \$25,601.41 minus a \$3,000.00 credit, total then of \$22,601.41"

"These are fairly close estimates, subject to change depending on exact footage and daily price change on materials."
